GINGER POWDER PRODUCTION FORMULA

Ginger powder is a profitable value-added spice product used in tea blends, cooking seasonings, health beverages, baking, and traditional remedies.

Ingredients

Fresh Ginger Roots – 5 kg

Procedure

1. Select fresh, healthy ginger roots.
2. Wash thoroughly to remove dirt and sand.
3. Peel lightly if desired.
4. Slice into thin pieces (2–4 mm).
5. Dry completely in the sun or oven.
6. Grind into a fine powder.
7. Sieve and regrind coarse particles.
8. Package in airtight containers.

Expected Yield

5 kg fresh ginger typically yields 0.8–1.2 kg ginger powder.

Packaging

20 g, 50 g, 100 g, and 200 g packs are recommended.
