Introduction

This module teaches practical mixed spice manufacturing using ingredients commonly available in Zimbabwe. The product can be sold as chicken spice, braai spice, chips spice, beef spice, or all-purpose seasoning.

Starter Formula (1kg)

Salt 350g, Paprika 180g, Curry Powder 120g, Garlic Powder 70g, Onion Powder 70g, Black Pepper 50g, White Pepper 30g, Ground Coriander 40g, Mixed Herbs 25g, Chilli Powder 20g, Chicken Spice Flavour 30g, MSG 15g.

Premium Formula (1kg)

Fine Salt 300g, Paprika 220g, Garlic Powder 100g, Onion Powder 90g, Black Pepper 60g, White Pepper 40g, Curry Powder 80g, Ground Coriander 40g, Ground Ginger 20g, Mixed Herbs 20g, Cayenne Pepper 15g, Celery Powder 10g, MSG 5g.

Equipment

Mixing basin, digital scale, gloves, face mask, sieve, spatula and airtight containers.

Production Procedure

1. Clean the work area.
2. Prepare and sieve ingredients.
3. Measure accurately.
4. Mix thoroughly for 10–15 minutes.
5. Sieve again for uniform texture.
6. Package immediately in airtight packs.

Packaging & Business Tips

Recommended pack sizes: 50g, 100g, 200g and 500g. Include brand name, ingredients, weight, manufacturing date, expiry date and contact details. Focus on consistency, attractive packaging and aggressive marketing.
