BODY CREAM FORMULAS (Zimbabwe Practical Version)

These formulas are designed for:

- * Ingredients commonly available in Zimbabwe
- * Small-scale production
- * Easy learning for beginners
- * Good market acceptance
- * Affordable startup costs

You can find most ingredients from:

- * Chemical suppliers in Harare
- * Pharmacies wholesalers
- * Cosmetic raw material suppliers
- * Avondale/Workington industrial areas
- * Some ingredients from pharmacies and supermarkets

1. LOW-COST BODY CREAM FORMULA

(Mass Market / Starter Formula)

This formula is:

- * Cheap to produce
- * Thick and attractive
- * Good for everyday moisturizing
- * Suitable for small businesses

Batch Size: 10 Litres

Ingredients

Ingredient	Quantity	Purpose
Petroleum Jelly (Vaseline)	2 kg	Moisturizing base
Emulsifying Wax	500 g	Mixes oil and water
Stearic Acid	400 g	Thickener
Glycerine	300 ml	Moisture retention
Mineral Oil / Baby Oil	500 ml	Skin softening
Cetyl Alcohol (optional)	150 g	Smooth texture
Distilled Water	5.5 – 6 L	Main base
Preservative (Phenoxyethanol or Germall)	20–30 ml	Prevents bacteria
Fragrance	20–40 ml	Scent
Color (optional)	Small amount	Appearance

Procedure

Step 1 — Oil Phase

In one container add:

- * Petroleum jelly
- * Emulsifying wax
- * Stearic acid
- * Mineral oil
- * Cetyl alcohol

Heat gently until everything melts completely.

Do NOT overheat.

Step 2 — Water Phase

In another container:

- * Heat distilled water
- * Add glycerine

Warm to almost the same temperature as the oil phase.

Step 3 — Emulsification

Slowly pour the water phase into the oil phase while mixing continuously.

Use:

- * Hand mixer
- * Stick blender
- * Paint mixer
- * Strong spoon for small batches

Mix until smooth and creamy.

Step 4 — Cooling

As the cream cools:

- * Add preservative
- * Add fragrance
- * Add color

Mix thoroughly.

Step 5 — Packaging

Fill into:

- * 200 ml jars
- * 500 ml jars
- * Tubs

Allow 24 hours before selling for full texture development.

Expected Results

Thick cream
 Good moisturizing effect
 Affordable production
 Beginner-friendly
 Easy to perfume

Approximate Zimbabwe Costing (Estimate)

Item	Approx Cost
-----	-----
Total Batch Cost	\$18–\$30
200 ml Production Cost	~\$0.40–\$0.70
Suggested Selling Price	\$1.50–\$3

Profit margins can be very good with proper packaging.

2. PREMIUM BODY CREAM FORMULA

(Professional / Higher-End Market)

This formula gives:

- * Better skin feel

- * Faster absorption
- * Professional texture
- * Better customer perception
- * Higher selling price potential

Batch Size: 10 Litres

Ingredients

Ingredient	Quantity	Purpose
Shea Butter	1 kg	Premium moisturizing
Cocoa Butter	500 g	Rich skin conditioning
Emulsifying Wax	600 g	Emulsifier
Stearic Acid	300 g	Thickener
Cetyl Alcohol	250 g	Silky texture
Sweet Almond Oil / Sunflower Oil	700 ml	Nourishment
Glycerine	400 ml	Moisture
Aloe Vera Gel	500 ml	Skin soothing
Distilled Water	5 – 5.5 L	Base
Vitamin E	50 ml	Skin conditioning
Preservative	30 ml	Product protection
Premium Fragrance	30–50 ml	Luxury scent

Procedure

The process is similar:

Oil Phase

Heat together:

- * Shea butter
- * Cocoa butter
- * Emulsifying wax
- * Stearic acid
- * Cetyl alcohol
- * Oils

Water Phase

Heat:

- * Water
- * Glycerine
- * Aloe vera

Emulsify

Slowly combine while mixing continuously.

Use a hand mixer for best professional texture.

Cool Down Phase

Below 40°C add:

- * Vitamin E
- * Preservative
- * Fragrance

Mix thoroughly.

Expected Results

Smooth luxurious texture
Fast skin absorption
Better skin feel
Premium market appeal
Better fragrance retention
Higher customer trust

Approximate Zimbabwe Costing

Item	Approx Cost
-----	-----
Total Batch Cost	\$40–\$70
200 ml Production Cost	~\$1–\$1.80
Suggested Selling Price	\$3–\$8

Premium packaging can increase perceived value significantly.

Important Production Tips

1. Hygiene is Critical

Always:

- * Sterilize containers
- * Use clean water
- * Wash equipment thoroughly

Bad hygiene causes:

- * Mold
- * Bad smell
- * Separation

2. Use Preservatives

Without preservative:

- * Cream can spoil quickly
- * Especially in hot Zimbabwe weather

3. Fragrance Selection

Good fragrance improves:

- * Perceived quality
- * Customer loyalty
- * Pricing power

Popular Zimbabwe scents:

- * Cocoa butter
- * Baby powder
- * Vanilla
- * Aloe
- * Strawberry
- * Oud (premium)

4. Packaging Matters

Good packaging can double your selling price.

Use:

- * White jars
- * Printed vinyl stickers

- * Professional labels

Customers judge quality heavily from appearance.

5. Beginner Advice

Start with:

- * Small 2–5 litre batches
- * Test market first
- * Improve fragrance and texture gradually

Do not start with huge production immediately.

END OF MODULE.
